FUEL FILTERS GS1212 AND GS1213

The new entry in the **TECNECO** range of items **GS1212** and **GS1213** applied on most 1.6cc Citroen, Peugeot, Ford and Volvo engines, **TECNECO** takes a step forward because it provides to the installer the complete version with support of **TECNECO** filters **GS1055** and **GS1071**, until now available only as Original spare part 9809757980 and 1677518.

The development of the project was born from the installer's need to save time when replacing this filters type because the new versions available with **TECNECO** code **GS1212** and **GS1213** are provided with the plastic support installed.

We always recommend the usual procedure which involves filling the filter manually as long as possible.

Note:
The classic versions with **TECNECO** code **GS1055** and **GS1071**, not supplied with plastic support, however, remain in the range for those who wish to replace only the filter.

HIGHLIGHT LAST UPDATE 07/20 (15/07/20)

NEW APPLICATIONS MERCEDES V-CLASS II

V II 220 CDI (120KW - 163HP) Mot. OM654.920 03/19->

V II 300 CDI (176KW - 239HP) Mot. OM654.920 03/19->

CK1259C

MERCEDES V-CLASS II

With its imposing dimensions, it is the flagship of large minivans. Basically, all versions are homologated at six posts on as many single armchairs, with the option of a central piece of furniture with folding tables. Four driving modes are available through the Agility Select selector which modify the transmission management mappings.
