New fuel filters GS1055 - GS1071

Starting from June 2017, fuel filters GS11047 and GS1677518 have been replaced by two new filters **GS1055** and **GS1071** radically changed compared to their predecessors and with 4 important technical improvements.

1. Upper support plate

Thickness increased of the top plate support plate from 2 mm to 2,5 mm.

2. Housing gasket sett

Seal seat groove increase to ensure greater stability during installing.

3. Cartridge free neck height

Cartiridge neck height increase to facilitate fitting of filters.

4. Greasing three threaded holes

Grease 3 threaded holes to improve the startup of the three prisoners during assembly.
