New GS2084E fuel filter

In this update we will introduce a new eco fuel filter GS2084E, for CITROEN , PEUGEOT and FORD applications.

Technically, the filter has the following special features:

1. FILTRATION MEDIA WITH CHEVRON PAPER PLEATING

it guarantees surface up to 20% more compared to traditional folding technology.

2. INTERNAL CANTS WITH 2 µm SYNTETHIC SHOES

to effectively block the weather in the diesel during the filtration phase.

3. GASKET IN VITON

a specific blend of fluorine and ethylene that ensures a seal at high temperatures even at 200° C.
